

COLOR IS POWERFUL

Valflon® from Sherwin-Williams is the perfect choice when you want something simultaneously rich, deep, vibrant, and glossy.

WHEN YOU WANT TO STAND OUT, CONSIDER VALFLON

This FEVE coating is able to achieve deep rich colors and high gloss levels that other fluoropolymer coatings are unable to achieve. It's ideal for any commercial or architectural establishment recognized by their color—retailers, restaurants, showrooms, and architectural offices just to name a few. This resin-based coating comes in Prismatic colors similar to Kameleon, and is highly resistant to weathering, airborne chemicals, acid rain and most cleaning solvents used to remove graffiti.

CONSISTENTLY BRILLIANT

- Outstanding color consistency
- Protection against weathering, chalking and fading
- Excellent overall adhesion
- Great flexibility and formability
- Available in two- and three-coat systems

AT YOUR SERVICE

We're here to help, and we'd like to work with you on your next project. If you have questions, contact: (888) 306-2645 or coilhelp@sherwin.com
