

## PERFORMANCE YOU CAN SEE AND FEEL

Unique textured perfection for the ages with WeatherXL™ Crinkle Finish, the new super-strength effects finish from Sherwin-Williams.

### FOR YOUR ARTISTIC SIDE

Let your eyes play over the surface, and delight in how it breaks up the light, creating an endless series of shifting, shimmering tones.

### FOR YOUR BUSINESS SIDE

This is one hard-nosed, no-nonsense surface. Stronger color retention, enhanced scratch resistance and the best resistance yet to chalking and fading.

### FOR THE “GREEN” SIDE OF YOU

A texture coating that meets current solar reflectivity (SR) standards for LEED and ENERGY STAR®, which helps keep buildings cooler and energy costs down.

### THE STRENGTH OF BEAUTY, AND THE BEAUTY OF STRENGTH

This high-durability roofing and wall panel material provides a new aesthetic appeal, customized for the exterior metal building coating standard needs. WeatherXL™ Crinkle Finish harnesses breakthrough technology to combine the look of authentic shingles and the durability of modern coatings as well as unique appearances for wall panels.

A number of potential applications for this coating are still emerging, but wherever appearance, hardness and durability are important, WeatherXL Crinkle Finish should be a top consideration.

### COLOR AND TEXTURE

The unique texture redirects light for enhanced visual depth, promising a step-change improvement over flat-panels' appearance. The coating has been responsively designed, so its subtle shading mirrors the eye's natural horizontal motion.

### DURABILITY

Formulated with enhanced WeatherXL™ silicone polyester, this product delivers proven superior quality for outstanding performance. For all its beauty, it features an enduring weatherability to resist fading, scratching and chalking.

### STANDING BY YOU

As with all our products, WeatherXL™ Crinkle Finish is backed by Sherwin-Williams' unequalled service and technical support. Count on us for unmatched lead times, highly responsive customer service, and the best technical support in the industry.

### AT YOUR SERVICE
