

WeatherXL™

Crinkle Finish

# Performance you can see and feel

Unique textured perfection for the ages with WeatherXL™ Crinkle Finish, the new super-strength effects finish from Valspar.

## Color and texture

The unique texture redirects light for enhanced visual depth, promising a step-change improvement over flat-panels' appearance. The coating has been responsively designed, so its subtle shading mirrors the eye's natural horizontal motion. Let your eyes play over the surface, and delight in how it breaks up the light, creating an endless series of shifting, shimmering tones.

## Durability

Formulated with enhanced WeatherXL™ silicone polyester, this product delivers proven superior quality for outstanding performance. For all its beauty, it features an enduring weatherability to resist fading, scratching and chalking.

## For the "green" side of you

A texture coating that meets current solar reflectivity (SR) standards for LEED and Energy Star, which helps keep buildings cooler and energy costs down.
